

THE SINGAPORE WORKPLACE SAFETY AND HEALTH CONFERENCE 2012

Established as a premier platform for workplace safety and health (WSH) stakeholders across the region, the Singapore WSH Conference is poised once again to bring together WSH professionals, business leaders and government officials to learn about latest trends and developments impacting WSH and its practice. The conference is expected to bring together more than 700 delegates from across the region and industries as businesses and organisations partake in the paradigm shift and embrace WSH as a value-add for the business instead of being merely compliance with regulation.

With the theme "Changing Landscapes, Shaping a Progressive WSH culture", the Singapore WSH Conference 2012 endeavours to be a dynamic congregation of thought leaders who will share their insights and experiences, and contextualise the impact of changes in the industry. There will also be a focus on how to uncover unlimited business opportunities by progressively instilling and developing a strong, pervasive WSH culture within businesses.

Highlights of programme topics include:

- How to shape a progressive WSH culture?

- WSH: Important for business sustainability?
- WSH Professionals: Operations or strategic?

The Singapore WSH Conference 2012 is co-organised by the WSH Council, Ministry of Manpower (MOM) and WSH Institute, and supported by

strategic partners - National Trades Union Congress (NTUC), Singapore Institution of Safety Officers (SISO) and the Singapore National Employers Federation (SNEF).

KEPPEL OFFSHORE & MARINE AND SEMBCORP MARINE AWARDED DISTINGUISHED PARTNER IN PROGRESS AWARD BY EDB

Industry heavyweights Keppel Offshore & Marine and Sembcorp Marine Ltd have been conferred the *Distinguished Partner in Progress* (DPIP) Award by the Economic Development Board (EDB) in recognition of their outstanding contributions to Singapore's economic growth and commitment to promoting the country's social and community interests.

The Awards were presented by Deputy Prime Minister Teo Chee Hean at a ceremony held on 28 March 2012. The DPIP Award is a highly exclusive and prestigious corporate award. Since its inauguration in 1991, 24 companies have been conferred the Award by the Singapore government. This is the first time local firms were given Singapore's top corporate honour. These two companies are global leaders in the marine and offshore engineering industry.

Mr Leo Yip, Chairman of the Singapore Economic Development Board commented that Singapore is fortunate to have these global leaders "making significant contributions to our economy. Each of them has used Singapore as a strategic location to grow their business in Asia and beyond, to

innovate and manage talent. Their commitment to Singapore has resulted in the strengthening of our marine industries, the growth of their supplier base and supporting industries here, and the establishment over the years of many initiatives to groom local talent."

Keppel Offshore & Marine has a global network of 20 shipyards and offices, and more than 40,000 employees worldwide. In 2007, Keppel O&M set up a S\$150 million R&D centre in Singapore, the Keppel Offshore & Marine Technology Centre (KOMtech), to provide specialised capabilities and upstream R&D of cutting-edge product designs, thereby enhancing Singapore's R&D ecosystem.

Sembcorp Marine has an R&D centre in Singapore and is building the nation's first purpose-built, custom-designed integrated new yard facility at Tuas View Extension. The new facility will incorporate advanced work-efficient features to facilitate process flows, and employ state-of-the-art production technology to enhance the productivity of its 9,900 strong global workforce.
