

# SINGAPORE PAVILION @ OIL & GAS ASIA 2017

Organised by  
Association of Singapore Marine Industries

## LIST OF PARTICIPATING COMPANIES

1. Axis Engineering Pte Ltd
2. Azen Manufacturing Pte Ltd
3. Dundee Marine & Industrial Services Pte Ltd
4. Hydro Group Asia Pte Ltd
5. KM Kinley Marketing Pte Ltd
6. Masterseals International Pte Ltd
7. O.E. Manufacturing Pte Ltd
8. Sensitron Singapore (Sensing) Pte Ltd
9. Sylvia Electric (S) Pte Ltd
10. TEHO Engineering Pte Ltd
11. Voith Turbo Pte Ltd
12. Yong Fah International Pte Ltd

Axis Engineering Pte Ltd was established in April 2000 in Singapore, to provide complete solution for packaged process analysers and instrumentation systems. We have since grown into an established independent system integrator, offering complete turnkey analyser systems for oil & gas and process industries.

Axis Engineering provides exceptionally designed and integrated analyser systems, products and field services for the process analysers system, for all process applications, and all makes and types of process analysers. We have expertise in process, stack (emissions), process on-line analysers systems, water quality monitoring systems, and LNG sampling system packages. Axis Engineering, being an independent system integrator, also assumes total responsibility for the systems designed and manufactured. This provides a single channel for communicating and interfacing, right from initial bidding to final FAT and site commissioning. Our involvement at all stages of the project helps to achieve consistent design, component selection, assembly, and system performance on plant.

Our expertise is complimented with the best-in-class engineering, manufacturing, integration field start-up resources. We have full-fledged, design, manufacturing and integration facility in Singapore to serve international clientele. Also complete analyser systems are delivered from our associate facilities in Sharjah, UAE and Jubail, Saudi Arabia.

**Azen Manufacturing Pte Ltd****Booth No: 7035**

Azen Manufacturing Pte Ltd is a Twin City Fan Company, one of the largest fan manufacturers in the United States. For more than 20 years, we have been actively serving markets in the Asia Pacific region such as Indonesia, Malaysia, Thailand and Vietnam.

Based in Singapore, Azen has full-fledged manufacturing facilities to design and manufacture ventilation fans from as small as ¼ HP to 8,000 HP industrial units. Our extensive product range includes amongst others: Axial fans, air handling & centrifugal fans, high pressure air handling fans, custom design fans, roof & deck exhaust fans, silencers/others.

- Technology - customer will receive creative and effective solutions that are tailored to specific needs of each individual project.
- Functionality - customer can trust us as we are fully equipped to provide support from designing, testing to the commissioning stage.
- Quality - customer can be assured that all our air moving system and equipment are built with care and comply with industrial standards of international certification bodies such as AMCA, ATEX, UL, BSI, ABS and ISO 9001.
- Reliability - we provide top quality services and genuine components with excellent logistic support.

**Dundee Marine & Industrial Services Pte Ltd****Booth No: 7046**

Dundee Marine & Industrial Services Pte Ltd has ventured into the marine, shipbuilding and repair industry since 1977. We are a builder of quality aluminum boats. Our mission is to provide dynamic services to meet our clients' requirements efficiently, effectively, safely and timely.

We specialise in the following services:

- Ship building & ship repairs of all classes and vessel types
- Marine, offshore, oil & gas, industrial steel fabricator
- Manufacturing of precision engineering parts
- Marine, offshore, oil & gas, industrial equipment supplier
- Marine consultancy

**KM Kinley Marketing Pte Ltd****Booth No: 7032**

Performance, preparation and protection are the key points that KM Kinley Marketing Pte Ltd has embarked on. It is headquartered in Singapore, with overseas partners in Europe, USA and etc.

KM Kinley manufactures Dyken water-driven gas freeing fans, Cobolt Roto Rust machines, pneumatic and electrical ventilation fans, high speed mucking winches, air tools, etc. Key features of our products are their reliability and product safety. All Dyken and Cobolt products are in compliance to quality and stringent tests. Our company is ISO 9001 and bizSAFE Level 3 certified.

Distributor for: Ramfan (USA) – ATEX explosion-proof fans, Texas Pneumatic (USA) – Pneumatic LED floodlight, air mover, JetFan, ASME air manifold, Innovative Manufacturing (Canada) – NoSpray tape, anti-corrosion tape, Cengar (UK) – ATEX air saw, ATEXOR (Finland) – ATEX temporary LED lights and ATEX LED handlamp/headlamp, Nightsearcher (UK) – ATEX LED torchlight/ATEX LED battery packed floodlight/Solaris LED floodlights, Cablesafe (Holland), Keeen (Thailand) – Bioremediation agents for oil spill cleaning/waste water cleaning.

**Masterseals International Pte Ltd****Booth No: 7037**

Founded in 1987, Masterseals International Pte Ltd specialises in seals for the oilfield, fluid power, marine, semi-conductor and chemical industries. We are an approved vendor to many established oilfield OEMs. With facilities in rubber molding and CNC machining, our materials are certified to API6A Annex F for Rapid Gas Decompression and Sour Gas Immersion (NORSOK M710).

Our key products are:

- Oilfield seals: O-rings, backups, S-seal, FS-seal, P-seal, bonded seal, casing hanger packing, valve stem packing, packer element, vee ring, PEEK face seal, PTFE lip seal, valve seat, hammer union seal, metal end cap seal, BOP seal kit, sealant, ring joint gasket, custom molded seals, custom machined seals.
- Hydraulic seals: lip seal, U-Cup, T-seal, crown seal, buffer, piston ring, compact seal, wear guide, wiper, radial shaft seal, wear sleeve.
- Materials: NBR, HNBR, Viton, Aflas, Kalrez, PTFE, PEEK, PU, Delrin, Nylon, UHMWPE, Spring (316SS, Elgiloy, Inconel, PEEK).

Founded in 1996, OE Manufacturing Pte Ltd is one of the most established hydraulic cylinder manufacturers in the region. For more than 20 years, our customer-centric focus and commitment to quality has garnered the recognition in the hydraulic industries. Our cylinders are in constant demand in industries like marine & offshore, oil & gas, agriculture, waste management, mobile and transportation, palm oil industries as well as other infrastructure projects globally.

Now, with the advent of technology, innovation is absolutely essential. Hence, significant investment has been made on R&D initiatives in O.E. Manufacturing, with a successful breakthrough in developing smart cylinders by incorporating high pressure proximity sensors into hydraulic cylinders and in developing ceramic coated cylinders after a series of tests and research as testament to its R&D capabilities.

O.E. Manufacturing manufactures various types of cylinders - telescopic cylinders, tie rod cylinders, welded series cylinders and other custom-build cylinders. We also provide services from hydraulic cylinder contract manufacturing, custom product development to cylinder replacement, service and maintenance.

**Sensitron Singapore (Sensing) Pte Ltd****Booth No: 7044**

Sensitron Singapore (Sensing) Pte Ltd is the branch office of Sensitron srl, an Italian leading manufacturer of industrial grade gas detection systems for toxic and explosive compounds.

Control panels and gas detectors are fully certified according to both the ATEX 94/9/CE directive and the standard EN50402. SIL 3 certified GALILEO SMS and GALILEO 8-32 control panels and the hi-tech SMART S-MS, S-SS, S-IR and S-IS rated to SIL 2 (3) have been designed for harsh environments and fulfill the requirements of EN50402 and IEC 61508 part 1-7.

Along with IR, EC and catalytic sensors, detectors employing innovative hybrid technology sensors and laser technology to provide an even more precise reading of the detected gas. Sensitron is ISO9001:vision 2008 certified.

**Sylvia Electric (S) Pte Ltd****Booth No: 7047**

Sylvia Electric (S) Pte Ltd, which started in 1983 as a sole proprietor for electrical supply to the industrial market has since grown to become a leading supply specialist of electric cables, accessories and equipment to the energy sector covering offshore, marine, petrochemical and utilities.

Our partnership with established manufacturers globally and our comprehensive inventory has enable us to meet the high demand of today's market requirement. With prestige quality products incorporated with value-added services, we strive to provide our customers with a one-stop solution for all their electrical needs.

Our team of highly trained and dedicated personnel work closely with customers from design stage to project delivery as we view our role as a critical tool to the completion of our customers' projects. Over the years, our experience in project management on newbuilts, repairs and conversions has evolved us into a leading supplier for electrical products in the South-east Asia region.

TEHO Engineering Pte Ltd has been in the market for more than 21 years specialising in market leading engineered products used in the marine and offshore industries. Our customer profile includes rig builders, HVAC contractors, oil companies, EPCC, EPCI, cruise vessel builders, ship and rig owners. We maintain close collaboration with consultants, engineers, purchasers and production team to meet each of our customer's application needs effectively.

With commendable track records, TEHO Engineering has been awarded the distributorships in Asia or South-east Asia for some of the world's leading brands of the above products, namely Chromalox, Halton, Helkama, InterDam, Meiko, OSO, STI Marine, Turnbull & Scott and RedFox. Our close relationship with manufacturers ensures better operational synergies and constant updates on industrial regulations and technological breakthrough.

To offer a more complete solution in engineering products, we specialise in these main product portfolios: heating systems, HVAC products, galley equipment, water calorifiers, offshore cables, cables transits, and blast & fire resistant doors and walls. We are equally strong in customer service. Characterised by our highly trained team and strategic presence in many Asian countries, such as Singapore, China, Indonesia, Malaysia, Myanmar and Vietnam, our customers are assured of exceptional services with unparalleled efficiency.

**Voith Turbo Pte Ltd****Booth No: 7033**

For 150 years, Voith's technologies have been inspiring customers, business partners and employees around the world. Founded in 1867, Voith today has around 19,000 employees, sales of €4.3 billion and locations in more than 60 countries and is one of the largest family-owned companies in Europe. Being a technology leader, Voith sets standards in the markets of energy, oil & gas, raw materials, transport & automotive.

The operative business is pooled in four Group Divisions: Voith Digital Solutions, Voith Hydro, Voith Paper and Voith Turbo.

Voith Turbo, a Division of Voith GmbH, is a specialist for intelligent drive solutions, systems and comprehensive services. Customers from highly diverse industries such as oil and gas, energy, rail and commercial vehicles, ship technology, mining and mechanical engineering rely on the advanced technologies and solutions-driven expertise of Voith Turbo.

Voith Turbo contributes to moving millions of people, goods and machines reliably. Our highly advanced technologies transmit and control powers under extreme conditions – safely and resource-sparingly. Drive components and systems from Voith Turbo can be found in a wide variety of industries: they are installed wherever power has to be converted into controlled movement. Voith Turbo is organized in two Business Divisions: "Mobility" and "Industry".
