Organised by  
Association of Singapore Marine Industries

## **LIST OF PARTICIPATING COMPANIES**

1. Aerodynamic Metals Pte Ltd
2. Flemings Safety Pte Ltd
3. Global Marine Safety (Singapore) Pte Ltd
4. Griffin Group International Pte Ltd
5. Marshall Cavendish Business Information Pte Ltd
6. Modern Automation & Engineering Pte Ltd
7. Palmarine Overseas Services Pte Ltd
8. Power Systech Pte Ltd
9. Soon Lian Hardware (Pte) Ltd
10. Trans-Asiatic Trading Pte Ltd
11. Xin Ming Hua Pte Ltd
12. Yong Fah International Pte Ltd
13. ZF Asia Pacific Pte Ltd

**Aerodynamic Metals Pte Ltd****Booth No. MF1**

Aerodynamic Metals Pte Ltd is one of the leading providers of products, services and supply chain solutions. We are recognised as a leading distributor of aluminium alloy and stainless steel products for our reliability, efficiency and commitment to quality. Our extensive ranges of products for aluminium & stainless steel sheets, plates and extrusions come in specifications of A1050, A1100, A2014, A2017, A2024, A3003, A5005, A5052, A5083, A5086, A5383, A5754, A6061, A6082, A7022, A7050, A7075 & SS304, SS316.

At Aerodynamic Metals, our sales team is well trained to assist you in all your enquiries. Our wide array of products caters to the marine, semiconductor, automation OEM, automotive components, aerospace MRO and manufacturers, and many other sectors. As part of our customisation services, we add value by employing CNC circular precision saw, CNC underwater plasma, CNC waterjet cutting according to the dimensional requirement of our customers.

With more than 20 years' experience in this field, Aerodynamic Metals continues to focus on developing in our dynamic service team, the capabilities and experience needed to facilitate today's demand for proficiency, cost competitiveness and quick response time in global supply chain management. We are an AS/EN 9120:2002 and ISO 9001:2008 Certified Quality Management System. Quality control, product traceability and transaction reliability are the main focus at Aerodynamic Metals.

**Griffin Group International Pte Ltd****Booth No. MD2**

Griffin Group International Pte Ltd is a global provider of products and services for the filtration industry. Griffin's MICROBLOC® is a revolutionary filtration technology that is used exclusively in Griffin filtration systems. It has tested to be 99.8% effective in separating water from fuel and can remove solid contaminants as small as 2 microns in size.

Griffin's ISO 9001:2008 certified factory produces die casting parts, plastic injection parts, filter elements as well as completed filters and water separator systems. Griffin's lab-tested filtration systems help save fuel, reduce maintenance costs and prolong engine life. To better serve its customers, Griffin has developed an international distribution network and its filtration technology and support is available to customers worldwide.

Griffin's fuel filter/water separators are ideal for marine engines or power plants, power generators, fuel storage polishing, automotive engines, construction & earth moving equipment, agricultural & forestry equipment and biodiesel applications.

**Power Systech Pte Ltd****Booth No. MF5**

Power Systech Pte Ltd designs and builds power management systems for various applications. Its core business revolves around switchboards for the marine industry. The company also provides land-based systems such as standby generator sets and power management systems for buildings.

Power Systech's flagship product is a PLC-based power management system which utilises touch screen control for a user-friendly experience. The addition of a touch screen gives consumers a flexible way to manage the capabilities of a PLC system allowing for customised add-ons and future expansions. Power Systech's management system is widely used in the marine industry. Its customers use its switchboard panels and generator sets controls in crew boats, ferries, fast crafts, container ships and offshore support vessels. Local polytechnics, specifically the Singapore Maritime Academy, have also adopted Power Systech's system as a teaching tool.

Power Systech's products have become the marine industry standard switchboards. Its products have operated for over 10 years without a hitch. As the manufacturing process is in-house, it is able to offer its systems built to customers' specifications using the most cost effective method at competitive prices while maintaining utmost quality and service.
