

SINGAPORE PAVILION @ INDONEISA MARITIME EXPO 2019

Organised by
Association of Singapore Marine Industries

LIST OF PARTICIPATING COMPANIES

1. Aerodynamic Metals Pte Ltd
2. Engtek (Pte) Ltd
3. Modern Automation & Engineering Pte Ltd
4. MTU Asia Pte Ltd
5. Palmarine Overseas Services Pte Ltd
6. SGP Propulsion Pte Ltd
7. Xin Ming Hua Pte Ltd
8. ZF Asia Pacific Pte Ltd

Aerodynamic Metals Pte Ltd, is one of the leading stockist and distributor of aluminium alloy products for its reliable, efficiency and commitment to quality. Our extensive ranges of products for aluminium alloy on sheet, plate and extrusion comes in the specification of (A1050, A1100, A2014, A2017, A2024, A3003, A5005, A5052, A5083, A5086, A5383, A5754, A6061, A6082, A7022, A7050, A7075, MIC 6 & etc).

At Aerodynamic Metals, our sales team is well trained to assist you in all your enquiries. Our wide array of products caters to the marine, shipbuilding, semiconductor, automation OEM, automotive components, aerospace MRO and manufacturers and many other sectors. As part of our customisation services, we added valued by employing CNC circular precision saw, CNC underwater plasma, CNC waterjet cutting according to the dimensional requirement of our customers.

With more than 20 years' experience in this field, Aerodynamic Metals continue to focus on developing our dynamic service team the capabilities and experience needed to facilitate today's demand for proficiency, cost competitiveness and quick response time in global supply chain management. We are ISO 9001:2015 Certified Quality Management System. Quality control, product traceability and reliable transaction are our main focus. Engtek (Pte) Ltd**Booth No: F-11**

Engtek (Pte) Ltd has been in the marine & offshore industry for 45 years.

Engtek in-house product – E-Pod, electric thruster improves the overall efficiency of the ship but also reduce the carbon footprints. Our hybrid propulsion system is developed to take advantage of the best from both worlds of propulsion, conventional, diesel electric and battery operated to make a system better suited for different types of vessels.

We also provide unmanned autonomous ships as a key element of a competitive and sustainable shipping industry in future. Also Engtek LNG Carrier mission is to design and develop optimal small-scale LNG marine tonnage for transporting LNG in smaller quantities.
