**Ascenz Solutions Pte Ltd****Booth No: 2207**

Ascenz Solutions Pte Ltd is Asia's leading provider for maritime operational risk intelligence solutions, providing transparency for regulatory compliance, operational efficiency and risk management.

Smart shipping is essential for data driven decision making in the maritime industry. Ascenz' Shipulse is designed to put that critical shipboard data and analytical tools at your fingertips to achieve performance optimization and increased fuel savings across your fleet. Our award-winning solution suite delivers comprehensive and insightful information for the following modules: bunkering monitoring, fuel consumption monitoring, vessel performance, offshore support activity management, emission compliance and voyage management.

Ascenz seeks to equip fleet managers with the right management tools for system tracking and key metrics monitoring. Recognising the growing importance of IMO's emissions targets and compliance requirements, Ascenz has developed a compliance reporting system which at the same time aligns with standards provided by the EU-MRV regulations.

**Turbo Solutions Pte Ltd****Booth No: 2212**

We are strategically located in the Middle East and Singapore. Our turbocharger service stations cater to service, repairs and reconditioning of all makes, models, types of turbochargers. The management and engineers comprise personnel who formerly worked with OEMs. You can rely on our skilled, trained and experienced teams for high quality and cost effective service 24/7. Our engineers and technicians are trained in Korea and Nagasaki in Japan.

We are ISO certified and the Singapore workshop is an authorized repair agent for MHI/MET turbochargers.

Dynamic balancing, shaft end repairs, re-blading, glass bead blasting, assembly of bearing units, reconditioning of oil pumps are some of the jobs undertaken. We stock new and reconditioned turbocharger parts and are committed to providing high quality products at competitive prices with warranty. Repeat orders from various shipping companies and shore-based power plants are a measure of our quality of spares and service.
