

SINGAPORE PAVILION @ ADIPEC 2017

Organised by
Association of Singapore Marine Industries

LIST OF PARTICIPATING COMPANIES

1. Astoria Solutions Pte Ltd
2. Axis Engineering Pte Ltd
3. CDI Multiseals Pte Ltd
4. DFI Engineering Pte Ltd
5. Finetek Pte Ltd
6. Flemings Safety Pte Ltd
7. Franklin Offshore International Pte Ltd
8. Global Marine Safety (S) Pte Ltd
9. One Offshore Pte Ltd
10. PH Hydraulics & Engineering Pte Ltd
11. Self-Levelling Metal Machines Pte Ltd
12. Seng Heng Engineering Pte Ltd
13. Sensitron Singapore (Sensing) Pte Ltd
14. Tri-Star Industries Pte Ltd
15. Yong Fah International Pte Ltd

Astoria Solutions Pte Ltd**Booth no. 12514**

Astoria Solutions Pte Ltd is a cloud-based workplace productivity and safety solutions provider that applies the concept of disruptive innovation to our products and solutions. We empower our customers with operational visibility, risk mitigation, faster project turnaround times and rapid global deployment, at lowest total cost of ownership.

We have over 14 years of experience in helping small and large businesses in Singapore, India and UAE, increase revenue, boost efficiency and improve workplace safety. We have developed deep insights into workforce management, labor time calculations and project operations in dynamic and complex work environments. This experience has enabled us to successfully implement our solutions across the industry spectrum, from construction sites and shipyards to oil & gas majors.

Axis Engineering Pte Ltd**Booth no. 12411**

Axis Engineering Pte Ltd was established in April 2000 in Singapore to provide a complete solution for packaged process analysers and instrumentation systems. We have since grown into an established independent system integrator, offering complete turnkey analyser systems for oil & gas and process industries.

Axis Engineering provides exceptionally designed and integrated analyser systems, products and field services for the process analysers system, for all process applications, and all makes and types of process analysers. We have expertise in process, stack (emissions), process on-line analysers systems, water quality monitoring systems, and LNG sampling system packages. Axis Engineering, being an independent system integrator, also assumes total responsibility for the systems designed and manufactured. This provides a single channel for communicating and interfacing, right from initial bidding to final FAT and site commissioning. Our involvement at all stages of the project helps to achieve consistent design, component selection, assembly, and system performance on plant.

Our expertise is complimented with the best-in-class engineering, manufacturing, integration field start-up resources. We have full-fledged design, manufacturing and integration facility in Singapore to serve international clientele. Complete analyser systems are also delivered from our associate facilities in Sharjah, UAE and Jubail, Saudi Arabia.

CDI Multiseals Pte Ltd**Booth No: 12415**

With strategic global locations across the world, CDI Multiseals Pte Ltd has a team of technology experts who leverage the industry's latest advancements in material science, engineering design and manufacturing processes.

From topside and downhole, and from land to subsea, we have provided our clients with high-performance solutions for over 30 years. Energy providers and OEM manufacturers have come to know of CDI Energy Products as an industry leader in designing critical components, sealing solutions and ancillary metal components that offer cost-performance value.

In the global energy industry, components must have severe duty capabilities. CDI is an experienced provider of sealing solutions capable of withstanding some of the toughest challenges including corrosive environments and media, abrasives, high-pressure ranges and broad temperature requirements. As your reliable, responsive partners, our international team is available to provide you with comprehensive and sustained technical support tailored to meet your individual needs.

Fine Tek Pte Ltd**Booth No: 12510**

FineTek Group is a global leader in the manufacture of automation and control systems. FineTek Pte Ltd was established in Singapore in 1979, and has its headquarters in Taiwan. Our company is dedicated to providing our customers with complete instrumentation solutions. Through disciplined management and dynamic research & development, we have attained numerous international certifications and approvals such as ISO9001, ABS, ATEX, DNV, BV to meet the complex needs of the process automation industry.

Our products are used in a broad spectrum of areas such as production and control systems, sensor component designs, liquid level controls and electrical power controls. They are also applied widely in many industries – marine, oil & gas, petrochemical, food & agriculture, environmental waste water, pharmaceutical, etc.

Through the integration of our R&D, manufacturing and international offices in the USA, Germany, China and Singapore, we offer a complete solution range of quality automation and instrumentation products to meet customers' specific needs.

Flemings Safety Pte Ltd**Booth No: 12414**

Flemings Safety Pte Ltd, established in 1994, is a specialist in the manufacture of flame retardant protective apparels for the international market through offices and factories in Singapore, Indonesia and Malaysia. Our customers include various global brand names from USA and Europe, to end users like Shell, Exxon Mobil and Chevron. Over the years, our business has grown to include distribution of various Personal Protective Equipment (PPE) from head-to-toe.

We are an ISO 9001:2008 certified company. Brands we represent include:

- Body Protection – Dupont Tyvek/Nomex/Victory/Tencate Tecasafe Plus/Klopman
- Hand Protection – Ironclad/MAPA/Safeman
- Foot Protection – Gaston Mille/Dunlop
- MRO – Brady/SPC

One Offshore Pte Ltd**Booth No. 12516**

One Offshore Pte Ltd designs and builds specialized subsea installation equipment for installing flexibles (eg. subsea umbilicals, risers, flowlines) and cables for laying single/double-joint/coiled rigid pipe, for installing FPSO turret/spread moorings, and for subsea launch and recovery.

With in-house capabilities in machine structures, electric and hydraulic drives, PLC controls, instrumentation and mechanical disciplines, One Offshore provides bespoke project equipment solutions. Some of these equipment are also available for rental. Equipment in the company's wide range of products include portable lay systems, tensioners, reel drives, carousels, winches and compensators, pipe lay systems and LARS systems.

Based in Singapore, One Offshore offers equipment of first world standards at Asian prices, using field proven machine philosophies, technologies and components.

PH Hydraulics & Engineering Pte Ltd**Booth No. 12416**

Incorporated in 1975, PH Hydraulics & Engineering Pte Ltd is Asia's leading deck equipment manufacturers for the marine and offshore industry.

Our core product categories are Floating Production Storage and Offloading (FPSO) deck equipment, pipe lay equipment, offshore drilling platforms, and hydraulic and electrical winches. Our company provides customised solutions and applies our technical know-how and experience to design robust equipment for harsh environments.

We value innovation, consistency in quality and operational performance. Our staff are trained to value integrity, excellence in service and open communication. This, along with a strong emphasis on health and safety and our strategic vision to keep up with technological changes, has ensured our success in providing quality and reliable equipment and services to customers worldwide.

Self Levelling Metal Machines Pte Ltd**Booth No: 12515**

Self Levelling Metal Machines Pte Ltd (SLMM) is an alliance between Self Levelling Machines Pty Ltd (Australia) and Metal Machines Engineering Services Pte Ltd (Singapore). Both companies are leaders in the field of specialised large-scale on-site machines and the synergy between the partners enables SLMM to offer an even higher level of expertise, technical capability and services.

With its headquarters strategically located in Singapore, SLMM began operations since January 2000. Armed with more than 40 years of combined experience, a pool of professional managers, engineers and sophisticated, custom-designed equipment. SLMM's operations stretch across Asia, from China and South Korea to Vietnam, Thailand, Malaysia, Indonesia, the Middle East and Singapore.

Sensitron Singapore (Sensing) Pte Ltd**Booth No. 12517**

Sensitron Singapore (Sensing) Pte Ltd is the branch office of Sensitron srl, an Italian leading manufacturer of industrial grade gas detection systems for toxic and explosive compounds.

Control panels and gas detectors are fully certified according to both the ATEX 94/9/CE directive and the standard EN50402. SIL 3 certified GALILEO SMS and GALILEO 8-32 control panels and the hi-tech SMART S-MS, S-SS, S-IR and S-IS rated to SIL 2 (3) have been designed for harsh environments and fulfill the requirements of EN50402 and IEC 61508 part 1-7.

Along with IR, EC and catalytic sensors, Sensitron offers detectors employing innovative hybrid technology sensors and laser technology to provide an even more precise reading of the detected gas. Sensitron is ISO9001:vision 2008 certified.

Tri-Star Industries Pte Ltd

Booth No: 12410

Tri-Star Industries Pte Ltd is a global leader in the manufacture of engineered, specialty, high criticality and MASTERCOTE corrosion-resistant stud bolts and fasteners including bespoke hydraulic torquing and tensioning equipment and solutions, M*RAK metallic and FRP/GRP cable support systems, and DIMET cathodic protection designs and systems.

We are a one-stop center, from design, engineering, material analysis to manufacturing, testing (our laboratory is ISO/IEC 17025 accredited), certification and commissioning.

With nine manufacturing locations throughout the Asia-Pacific and the Middle East and a distribution network in the USA, we bring our quality products and services closer to our customers. In addition to being on the preferred manufacturers' list of most oil and gas majors, asset owners, subsea OEMs and EPCCs, we are also the Enterprise Frame Agreement supplier of fasteners to Shell globally.
