Griffin Group International Pte Ltd**Booth No: E-Q28**

Griffin Group International Pte Ltd is a global provider of products and services for the filtration industry, utilizing proprietary technology developed from over 40 years of professional experience purifying petroleum-contaminated seawater. In 2003, Griffin developed **MICROBLOC**[®], a revolutionary filtration technology that is used exclusively in Griffin filtration systems. **MICROBLOC**[®] multi-grade filtration media elements have tested to be 99.8% effective in separating water from fuel and can remove solid contaminants as small as 2 microns in size.

Griffin manufactures its proprietary line of filtration systems as well as OEM/OES products in its own factory. This ISO 9001 certified factory houses production lines for die casting, plastic injection and filtration product manufacturing. Griffin's lab-tested filtration systems help save fuel, reduce maintenance costs, and prolong engine life.

To best serve its customers, Griffin has developed an international distribution network. Its filtration technology and support is available to customers worldwide. Griffin has received ABS Type Approval by the American Bureau of Shipping for its MAS and GFS series of fuel filter water separators. Griffin Filter includes fuel filters, hydraulic filters, oil filters and air filters under its sister brand iFIL. Its flagship products, Griffin Fuel Water Separators are ideal for all kinds of the engines especially marine engines.

Established in 1988 and having gained a wealth of experience, Griffin Kinetic's service and capabilities continue to be managed by a team of expert and dedicated staff. Griffin Kinetic Pte Ltd covers all logistical needs including air and sea freight forwarding, warehousing and distribution services. In 2009, GKLOG Holdings was formed upon completion of a rebranding process.

Today, Griffin Kinetic is recognized by its customers as a one stop facility for all their freight forwarding needs. Griffin Kinetic is able to deliver any cargo, regardless of shape or size, to any location in the world. Through on time deliveries, every time, from any warehouse to any vessel in the world, Griffin Kinetic has carved its niche in the marine logistics sector.

Having developed a core competency in marine and offshore logistics for time-sensitive shipments, GKLOG branched into its next market - the Pharmaceutical and Biochemical industries. These temperature-sensitive shipments are handled by GK Pharma Pte Ltd. Griffin Kinetic is a member of the Association of Singapore Marine Industries (ASMI), Singapore Shipping Association (SSA) as well as Singapore Logistics Association (SLA). This attests to Griffin Kinetic's capability and credibility that each and every shipment is in good hands.

Maritec Pte Ltd**Booth No: E-Q37**

Established in 1999, Maritec Pte Ltd is the preferred choice for marine fuel testing and bunker quantity survey. Maritec offers a competitively priced, premium fuel testing programme used by many international shipping companies world-wide. Programme fee includes the cost of testing, fuel oil bottles and documentation in sampling kits and courier costs. Samples taken during bunkering by the ship's crew are urgently sent by DHL couriers and tested in Maritec's ISO/IEC 17025 accredited laboratory in Singapore which is open 7 days a week.

Maritec has ISO/IEC 17020 Accreditation for Inspection service. Maritec bunker surveyors are highly regarded for their impartiality and professionalism with high emphasis on integrity. Regular on-board checks on surveyor performance and lie detector (polygraph) testing provide customers with peace of mind when engaging Maritec.

DNV-GL-certified Custody transfer line samplers are sold for easy sampling at vessel's bunker manifold. Maritec also provides potable water shore testing for compliance with MLC2006.

Maritime Partner Asia Pte Ltd is the subsidiary of Scanvik Marine Services Pte Ltd. Maritime Partner (MP) has delivered 2,000 crafts worldwide since the first craft was delivered in 1982. Yearly, Maritime Partner delivers up to 100 crafts of various sizes. The boats are delivered to offshore oil operators, navies, police, Search and Rescue Craft (SAR) and coastguards. Also special workboats are built for offshore wind, diving and fish farming and other demanding operators. Common for many of Maritime Partner's customers are that they all have special requirements due to extreme operational environment.

Manufacturer of high speed craft in sizes 5 to 25 meters made in aluminium or composite material. Patrol crafts, fast rescue boats, daughter craft, work boats, dive boats, SAR as well as tourist sightseeing catamarans. A network of agents handle sales and spare parts, whilst service is mainly taken care of MP's own workshops in Norway and Singapore and on customer's premises. The boats are sold under the brand names Alusafe, Seabear & Weedo.

Sovereign Shipping Global Pte Ltd (SSG) is a Singapore-based shipbroking firm with in-depth expertise of the shipping industry. Besides predominantly acting as a vessel Sales and Purchase (SNP) intermediary between buyers and sellers of various types of ships, SSG also provides a comprehensive range of services. These include consultancy in newbuilding and vessel demolition projects, contract negotiations, liaising with naval architects, equipment vendors and sourcing of shipyards, amongst other services offered for the benefit of its clients in South East Asia.

In 2017, SSG ventured into innovative technology by developing a mobile application platform for shipowners and financiers. This complimentary app "Sovereign Shipping Global" allows users to access historic ship sales data of conventional vessels to encourage productivity improvement.

SSB Cryogenic Equipment Pte Ltd**Booth No: E-Q27**

SSB Cryogenic Equipment Pte Ltd (SSBCE), a subsidiary of Sing Swee Bee Group, is the largest T75 ISO tank lessor in Southeast Asia. We focus on providing transportation and distribution solutions, as well as the supply of cryogenic bulk liquids (Ethylene, Ammonia, LIN, LOX, LAR, LCO2, LN2O, LNG, LPG, etc.) to the gas and marine industry within the region.

SSB Cryogenic Services, a subsidiary of SSBCE, specialises in a wide range of cryogenic, marine and project solutions, notably in the field of purging, non-destructive testing, and last but foremost, turnkey projects solutions. Being the only Singapore company (1 of 5 companies in the world) certified to render LNG membrane Global Test for GTT's cargo containment system, we further enhances our business capabilities by incorporating non-destructive testing with the retrofit and repair works for LNG membrane vessels in Southeast Asia, Australia and New Zealand.

We have also expanded our portfolio into the provision and construction of small-scale LNG membrane vessels. Not only we can bring in the engineering technology, expertise and experience in LNG membrane construction to this region, but also allowing us to move up the value chain and enhance our ability to provide small-scale LNG supply chain solutions to our customers.

WAGO Electronic Pte Ltd**Booth No: E-N08**

In October 1996, WAGO Electronic Pte Ltd was established with the aim to promote, sell and distribute WAGO's product range in South East Asia. WAGO Electronic Pte Ltd is a subsidiary of WAGO Kontakttechnik GmbH & Co. KG of Germany.

Today, WAGO became one of the world's premier automation suppliers since the introduction of the first modular, fieldbus-independent control system in 1995. WAGO offers the broadest range of spring pressure termination products such as rail-mounted terminal blocks, I/O modules, relays, optocouplers, signal conditioners, power supplies, overvoltage protection, interface boards, etc. Our components and systems are used worldwide in industrial, automotive, process engineering, building and many other sophisticated applications.

Nevertheless, automation solutions from WAGO are compact, versatile, and well suited for installations in the oil & gas industry. The combination of compact, rugged design and the Ex-I barriers built into our controllers and interface modules is one of the reasons that customers choose our products.
