Organised by  
**Association of Singapore Marine Industries**

## **LIST OF PARTICIPATING COMPANIES**

1. Beng Hui Marine Electrical Pte Ltd
2. Codar (Pte) Ltd
3. Duprex Offshore Pte Ltd
4. Freudenberg Technical Supply (Sin) Pte Ltd
5. Griffin Group International Pte Ltd
6. Kin Marine Pte Ltd
7. KM Kinley Marketing Pte Ltd
8. Masson Marine Propulsion Pte Ltd
9. Mech Marine Engineering Pte Ltd
10. Modern Automation and Engineering Pte Ltd
11. O.E. Manufacturing Pte Ltd
12. Sea Hover Technologies Pte Ltd
13. SL Metals Pte Ltd
14. TBH Industrial & Marine Pte Ltd
15. Trans-Asiatic Trading Pte Ltd
16. Wartsila Singapore Pte Ltd
17. Xin Ming Hua Pte Ltd
18. ZF Asia Pacific Pte Ltd
19. 3Waves Energy Pte Ltd

**Beng Hui Marine Electrical Pte Ltd****Booth No: G01**

Established in 1965, Beng Hui Marine Electrical Pte Ltd is a one-stop electrical supplier to marine shipbuilding and repair, on-and-offshore, and oil & gas, petrochemical, industrial and commercial industries worldwide. We have supplied multiple marine and industrial projects in Vietnam and are open to working with agents. We are the preferred vendor of many established clientele - ship chandlers, ship owners, ship-management companies, system integrators, shipyards and fabrication contractors.

Our comprehensive inventory from international brand partners allow us to provide a wide portfolio of premium, technically-certified electrical products such as marine & offshore cables, telecommunication & industrial cables, traditional and LED lighting systems, ex-proof lightings, and electrical accessories. One of the highlights is our in-house range of reliable marine and offshore LED lightings - SOP (Save Our Planet). These lightings will contribute significantly to your energy consumption and offers almost zero maintenance - cutting you back on huge manpower costs and time spent on maintenance and technical consumables.

Our value-added services include total inventory management, quality component integration, MRO sourcing capabilities, price consistency during projects, technical and engineering support – complimentary lux and LED ROI calculation, and global logistics mobility.

**Codar (Pte) Ltd****Booth No: G15**

With 50 years in marine business since incorporation in 1968, Codar (Pte) Ltd has been one of the pioneers providing the supply, installation and repair of marine radio communications and navigational equipment.

Codar represents leading prestigious international manufacturers such as Japan Radio Co. Ltd (JRC), Alphanon Marine Systems (Alphanon), Yokogawa Denshikiki Co Ltd (YDK), Navitron Systems Ltd, Moonraker Australia Pty Ltd/CBG Systems, John Lilley & Gillie Ltd, Standard Communications Pty Ltd (GME) and New Japan Radio Company Ltd (NJR) & etc. for their marine products.

From her base in Singapore, Codar has expanded regionally with offices in Vietnam (Hanoi and Ho Chi Min City), Thailand (Bangkok) and Malaysia (Johore and Klang). Together with these regional offices, Codar group provides reliable and value-added seamless services for our customers with long proven track records. The group has a large team of professional, dedicated and factory-trained engineers in all our offices. Each office has workshop fully equipped with to-date test gears and warehouse stocked with essential equipment and ample spare parts. With these extensive set-ups, our services are therefore assured of the best dedication and valued quality meeting the needs of our customers.

**Duprex Offshore Pte Ltd****Booth No: G03**

Duprex Offshore Pte Ltd is a Singapore-based supply specialist for quality engineering products at competitive prices for the oil and gas, marine, utilities & processing industries. Our comprehensive electrical and instrumentation products range from cables, cable trays & ladders, lightings, electrical accessories, consumables, valves, fittings, flanges, tubing and hoses which will complement any project requirement. Our products are made to withstand adverse environment and applications, be it offshore, marine, drilling, exploration, petrochemical, power plants, processing plants, mining, ports, military and renewable energy.

With established resources and partnerships with major manufacturers applying cutting edge technology, we are confident to provide a holistic supply to EPCs, fabrication yards and end-users on any requirement basis. A total solution provider is essential for your engineering needs and we are committed to deliver the products to suit any harsh, hazardous or normal conditions.

Our team possesses vast experience in the engineering supply sector and you can rest assured that professional quality service and timely delivery are paramount commitment we uphold strictly. We are constantly improving ourselves to serve you better, bringing value and strong support to your business.

**Griffin Group International Pte Ltd****Booth No: H07**

Griffin Group International Pte Ltd is a global provider of products and services for the filtration industry, utilizing proprietary technology developed from over 40 years of professional experience purifying petroleum-contaminated seawater. In 2003, Griffin developed **MICROBLOC**, a revolutionary filtration technology that is used exclusively in Griffin filtration systems. **MICROBLOC** multi-grade filtration media elements have tested to be 99.8% effective in separating water from fuel and can remove solid contaminants as small as 2 microns in size.

Griffin manufactures its proprietary line of filtration systems as well as OEM/OES products in its own factory. This ISO 9001 certified factory houses production lines for die casting, plastic injection and filtration product manufacturing. Griffin's lab-tested filtration systems help save fuel, reduce maintenance costs, and prolong engine life.

To best serve its customers, Griffin has developed an international distribution network. Its filtration technology and support is available to customers worldwide. Griffin has received ABS Type Approval by the American Bureau of Shipping for its MAS and GFS series of fuel filter water separators. Griffin Filter includes fuel filters, hydraulic filters, oil filters and air filters under its sister brand iFIL. Its flagship products, Griffin Fuel Water Separators are ideal for all kinds of the engines especially marine engines.

**Masson Marine Propulsion Pte Ltd****Booth No: H03**

Created since 1908, Masson Marine is a leader in marine propulsion technology and designs, manufactures and commissions a full range of marine gearboxes with hybrid systems, brakes whether integrated or external, shaft lines and controllable or fixed pitched propellers. Masson Marine Propulsion Pte Ltd was set up in Singapore in 2008.

Our engineering team consists of both skilled marine and mechanical engineers to achieve the best products designed for your specific needs. We are internationally renowned for over 110 years for the reliability and durability of our products.

Masson offers a wide range of high quality and high performance products adapted to all propulsion systems (diesel, gas, electric). Our reduction gearboxes and propellers comply with the quality standards of all major-brand engine manufacturers all over the world. A wide range of different ship types are propelled and served by Masson Marine - more than 28,000 Masson Marine gearboxes and 1,000 controllable pitch propellers on various vessels are operating around the world.

**O.E. Manufacturing Pte Ltd****Booth No: H02**

Founded in 1996, OE Manufacturing Pte Ltd is one of the most established hydraulic cylinder manufacturers in the region. For more than 20 years, our customer-centric focus and commitment to quality has garnered the recognition in the hydraulic industries. Our cylinders are in constant demand in industries like marine & offshore, oil & gas, agriculture, waste management, mobile and transportation, palm oil industries as well as other infrastructure projects globally.

Now, with the advent of technology, innovation is absolutely essential. Hence, significant investment has been made on R&D initiatives in O.E. Manufacturing, with a successful breakthrough in developing smart cylinders by incorporating high pressure proximity sensors into hydraulic cylinders and in developing ceramic coated cylinders after a series of tests and research as testament to its R&D capabilities.

O.E. Manufacturing manufactures various types of cylinders - telescopic cylinders, tie rod cylinders, welded series cylinders and other custom-build cylinders. We also provide services from hydraulic cylinder contract manufacturing, custom product development to cylinder replacement, service and maintenance.

**Sea Hover Technologies Pte Ltd****Booth No: G17**

Since its inception in 2002, Sea Hover Technologies Pte Ltd has evolved with cutting-edge testing and calibration facilities. Coupled with highly trained and experienced team, Sea Hover Technologies is able to deliver high quality services to its customers. This year we proudly launched our own product - SHT2002 Ullage Temperature Interface Gauging Device, for tank level measurement on marine vessel. It is user friendly and durable, providing great accuracy with low maintenance cost. It is suitable for hydrocarbons and corrosive liquids application.

OEM Solutions: We welcome inquiry from manufacturers that are interested in offering our product as part of their new product. An OEM programme can be tailored to suit most needs. Whether you are looking for a specific design that is produced exclusively for your company or bulk discount, we will work together to find the solution that works best. Conversely, if you have a product (OEM) that best suit our company's portfolio, we are open for ideas.

Automation Solutions: Working closely with our partners, we offer sale, service & repair and maintenance of an extensive range of electrical, instrument and control systems for the marine industries.
