Subject: Updates on SGWorkPass app and TraceTogether app & Webinar on use of SafeEntry app
Attachments: How to install TraceTogether and check for TraceTogether status in SGWP.pdf

CIRCULAR TO MEMBERS

15 June 2020

Dear Members,

1. UPDATES ON SGWORKPASS APP AND TRACETOGETHER APP

1.1 Members are reminded to ensure their workers and their contractors' workers have downloaded and registered for the latest version of the TraceTogether app. Instruction is attached.

1.2 The SGWorkPass, which is used to check the validity of Singapore work passes or long-term passes issued by the Ministry of Manpower (MOM), has been updated to incorporate multiple checks as part of a phased approach to resume activities safely after the Circuit Breaker period. These checks include:

- a) Worker's health status – tested positive for COVID-19 earlier and discharged, or have been tested negative;
- b) Worker's work status – granted approval for employer to resume business operations and approval for worker to work;
- c) Worker's residence status – residence in uncleared purpose-build dormitories, factory-converted dormitories, construction temporary quarters, temporary occupation license quarters or temporary living quarters;
- d) Worker's traceability* [with effect from 15 June 2020] – download, activation and maintenance of the latest version of the [TraceTogether mobile app](#) to facilitate contact tracing

1.3 Failure to download the latest version of the TraceTogether app will result in the SGWorkPass showing 'RED'. If the SGWorkPass is 'RED', companies are advised to:

- a) Remind workers to register on the TraceTogether app (see the guide attached).
- b) Update the worker's address on MOM's Online Foreign Worker Address Service (OFWAS) (for work permit holders) and Employment Pass Online (for S pass holders and Employment pass holders).
- c) Confirm that approval has been granted to resume operations and [for Construction/Marine/Process sectors] approval for worker to work.
- d) Confirm that the worker has not tested positive for COVID-19 recently, or is still under quarantine or SHN.

1.4 The SG WorkPass is updated around midnight each day; depending on the time at which the above measures are taken, the SG WorkPass will incorporate any changes in a 1-2 day period.

1.5 For further queries, companies may write in to MOM_DormExit_Ops@mom.gov.sg.

*Applicable for the following groups of migrant workers, as announced by MOM on 27 May 2020.

- Workers staying in all dormitories (i.e. purpose-built dormitories, factory-converted dormitories, construction temporary quarters and temporary occupation licence quarters)
- Work Permit and S-Pass holders who work in the Marine sector.

2. WEBINAR ON USE OF SAFENTRY APP

2.1 In addition, GovTech has noted that utilisation of SafeEntry with checks specifically for Marine sector is low.

2.2 GovTech is organising a webinar for companies on the use of SafeEntry. The proposed agenda is as follows:

- What is SafeEntry? What is SE NRIC and SE QR? Access code is available only on SE-NRIC.
- How to onboard SE-NRIC and turn on CMP access code feature? Different access code colour screens and actions that users can take will be presented.
- Avenues of assistance such as emails/hotlines will be shared.
- Q&A (Panellists will type responses to written Q&A throughout the whole briefing. Complex questions will be taken verbally.)

2.3 Please register at the below URL for the SafeEntry Access Code briefing on 17 June, Wednesday, 11.30am:
https://zoom.us/webinar/register/WN_4IPtaHjQRgS-_4HjkludQ

Best regards,
ASMI Secretariat
